

SEAKM – KANSAS CITY CHAPTER
EDUCATIONAL PROGRAM

Butler Manufacturing
“Building in a New Light”

Thursday, May 14, 2009
11:30 to 1:30 P.M.

QUALIFIES FOR (1) PDH

Butler Manufacturing is the world's leading producer of steel building systems, combining more than 100 years of experience, and the strength of more than 1,400 independent Butler Builders® around the globe. Since our early days of pioneering systems construction with the introduction of the rigid frame, Butler has continued to lead the industry with not only superior products, but also with an unmatched commitment to service and support. Whether your projects include simple support services buildings or highly complex designs, Butler has the expertise to assist. This program will illustrate our company profile, manufacturing capability and demonstrate our vast array of products and applications.
